## About Me

Motivated and detail-oriented entry-level web developer with a passion for creating innovative and user-friendly web applications. Effective leader with strong problem-solving skills who excells at tackling problems with an analytical approach. Eager to contribute to a dynamic team while further enhancing technical skills in a supportive and challenging work environment.

## Projects

**No-Vig Odds**

*https://no-vig-odds.web.app*

No-Vig Odds is an innovative betting app that provides users with real-time moneyline odds. It goes a step further by calculating and removing the sportsbook's vigorish, allowing users to access unbiased odds that accurately reflect the chances of a team's victory or defeat.

**CryptoGecko**

*https://cryptogecko-dg.web.app*

CryptoGecko is a CoinGecko clone, enabling users to sign in and create a watchlist of their favorite coins. Upon clicking a coin, it brings the user to a page with historical price data and coin descriptions, enhancing their overall experience.

## Education

**2023**
*NuCamp*

**Full Stack Web and Mobile Development**

- Front End Web UI Framework, Bootstrap
- Front End JavaScript Library, React
- Multiplatform Mobile App Development with React Native
- Server-Side Development with NodeJS, Express and MongoDB
